

Where Did My Puppy Come From?

Shake A Paw buys our puppies from local hobbyist breeders and USDA inspected and approved kennels only!! No puppy mills or substandard kennels here! Every puppy arrives at Shake A Paw with a health certificate from the breeder or kennel's veterinarian, and is then evaluated for temperament, general conformation to the Breed Standard and overall health. Every puppy is literally hand picked by the store owner and staff, and very often your new puppy is "Pick of the Litter". Only after an additional examination by our store veterinarian to assure you of a healthy puppy is your puppy ready to go home. Another reason why Shake A Paw is Your Best Choice for a Healthy, Happy Puppy!
